EDUCATION

Electronic Imaging, BA — Northern Michigan University, Marquette, MI, 2003

MEDIA EXPERIENCE

FREELANCE WEB DESIGNER / DEVELOPER

A Moodle Mod, 2009

- Installed an e-learning course with the Moodle LMS. Used CSS to customize the frontend look and feel. Used PHP to customize the backend and various third party plugins in order to tailor the system to my clients needs.

PHP and AS3, 2009

- Developed PHP and MySQL to export information from a Flash kiosk/game to a database. The information was accessed by a second kiosk/leaderboard via PHP and MySQL.

Hannahville.net, 2009

- Designed and developed this site with Expression Engine. Directed employees in charge of entering data into the CMS

SouthCentralUP.org, 2009

- Designed and developed the front-end of the site. Directed a PHP programmer in the construction of the site's backend

HannahvilleSchool.net, 2008

- Designed and developed this site with Expression Engine

SamEnglishArt.com, 2008

- Designed and developed this site with a Wordpress Blog and a PHP art gallery

LANGUAGE RESOURCE DEVELOPER

Hannahville Culture Department, Wilson MI. 2007-2009

- Designed and developed PotawatomiLanguage.org, an e-learning site
- This site features a Wordpress blog for news and updates, an e-learning system built with the Moodle LMS, and language resources powered by php and a MySQL database
- Learned the Potawatomi language enough to write and teach a 36 week online course on Potawatomi grammar. This course is taken by high school students and adult Potawatomi students nationwide
- Took the initiative to write a book entitled Potawatomi Grammar Basics which is used in the high school classroom at Hannahville Indian School
- Recorded and edited audio and video content daily
- Took the initiative to design and develop "Storybook", an AJAX app located at PotawatomiLanguage.org/Storybook. Storybook uses PHP and a MySQL database to deliver story based language content via AJAX.
- Designed and developed the "Hannahville Virtual Museum" located at PotawatomiLanguage.org/VirtualMuseum. Worked with students to photograph Artifacts at the National Museum of American Indians in Washington DC. Used Zoomify and Quicktime VR to present the media online
- Developed and taught a high school course on Web Design and New Web Technology
- Developed and taught a Photoshop course to Hannahville Community members and employees
